"It is like a grain of mustard seed, which a man took, and cast into his garden; and it grew and waxed a great tree....."
St. Luke 13:19

After 39 Years

These thirty-nine years have reflected tremendous progress in all phases of campus life here at East Central Junior College. In 1927, the regular session of the Mississippi Legislature enacted a law authorizing the establishment of public junior colleges to prepare a better educated youth. We now see the name of E. C. J. C being brought to state-wide attention through its educational progress, its expansion of physical plant, its inter-collegiate sports activities and its questing student body. The combination of expended energy and effort toward advancement creates the goal by which we the staff of the 1967 Wo-He-Lo wish to portray--------the spirit of East Central.

The 1967 Wo-He-Lo has attempted to preserve the traditions of East Central Junior College in every phase of life here.

We, as students, faculty and staff, have every reason to be proud of our college. To us she is the BEST. We are proud to say "This is our college, East Central Junior College."

Through the years, institutions of higher learning have been challenged to meet the needs of their students, their states, and their nation. East Central Junior College has answered that challenge by continuing to grow through expanded offerings and increased enrollment. From its beginning, many students have received their training at this institution and are today taking their places in the complex society of this century.

In the years to come, when you look back at your 1966-67 WO-HE-LO, it is our hope that its theme, "Many Were The Times", will open the door to many pleasant memories for you. It is our further hope that East Central Junior College will not only represent for you the institution at which you received your formal training but that it will remain a symbol of those elements which helped you to obtain maturity and success.

A parting... joy mixed with sadness... for some, the half-way mark... for others, the end and the beginning... much has been learned... from books... from friendships... from instructors... from experience... from mistakes... from defeat... from victory... from life...

A feeling of maturity mixed with a feeling of doubt... inflated ego... behold the lowly freshman... we were there... once... but not now... so much knowledge... yet actually so little...

New worlds to conquer... new things to learn... a new life... new friendships to make... excitement... a feeling of adventure... but the past will be missed... and missed... and missed...

They come seeking knowledge and the lights of wisdom... truth... the meaning of life... its complexities... its wonders... its delights... the why and where... the what and who...

They are lost... they grope... they are anguished and defiant... they believe... they disbelieve... they accept and reject... they must regiment themselves into the changing cycles of an adult world...

Slowly the darkness fades... the confusion wanes... they accept... they find what they seek... the inner world of childhood crumbles... they emerge as men and women... the path has become clear...
